# S464 DVB-S2 PCI Specification

- **Low power consumption DVB-S2 chipsets**
- **Low profile PCI interface**
- **Bundled software myTeVii**
- **Trial version of ProgDVB Pro**
- **Bundled IP software TeViiData**

## Software Key Features

- Watch DVB-S2/DVB-S TV and listen digital radio on PC
- Support HDTV (MPEG-4 AVC/ H.264 up to 1080i)
- Real-time recording in MPEG/TS format
- Pre-scheduled & wake-up recording
- DiSEqC 1.0/1.1/1.2 & USALS supported
- Blind Scan
- Time-shifting
- Electronic Program Guide (EPG)
- Subtitles
- Plug-in Interface supported
- Favorite list
- On Screen Display (OSD)
- Remote control supported
- Support English/Russian/German/French & other languages

## Specification

- Input terminal: F-type 75 Ohm
- Receiving frequency: 950~2150 MHz tuning range

## LNB & Switch control

➢ LNB supply voltage: 13V/18V

➢ DiSEqC: 1.0/1.1/1.2

➢ Symbol rate: 2~45Msps

➢ Antenna & LNB control: 22KHz

## Interface

➢ PCI Bus: PCI 2.2 compliant

➢ Host Bus burst rate: 132 MB/S

➢ Host Bus width: 32 bit

## Package Includes

➢ S464 DVB-S2 PCI card

➢ Remote control & infrared sensor cable

➢ Installation CD

➢ Quick Installation Guide (English & German)

## System Requirements

➢ Microsoft Windows XP/Vista

➢ 2.0GHz CPU (2.4GHz for HDTV)

➢ 256M RAM (1GB for HDTV)

➢ VGA card with at least 128MB memory

➢ Microsoft Direct X 9.0C or above

➢ Sound card or on-board sound chip

➢ One free PCI slot

➢ Digital satellite dish & LNB
